**It is the task of witches to transition summer into autumn. A young witch named Mable has been assigned to bring fall to the particularly stubborn town of Summerbrook.**

One day in late September, while cussing at a tree that refused to change the color of its leaves, Mable is spotted by a Local Nerd, Garry, who notices the impeccable authenticity of her hat.

He walks over to inquire about it,  
but catches her blasting the tree  
with a shot of powerful magic.  
Garry does not attempt to contain  
his excitement.

Considering his enthusiasm and her dislike for work, Mable decides to hire Garry as her intern and teach him the ways of magic.
